The DREAM Program

Concern Log

Purpose of the Concern Log:
All parents and children involved in DREAM should know how to voice concerns with DREAM, and feel comfortable and safe when voicing these concerns. It is also important that the DREAM Advisory Board take the concerns seriously, review them thoroughly, and keep them confidentially.

Addressing Concerns:
The review procedure for concerns is straight forward: during an Advisory Board meeting, concerns should be examined, addressed, and acted upon. Names should not be revealed during these discussions, unless necessary to addressing the concern. The concern form should remain in the binder and the binder should be kept in a secure location. If the Advisory Board feels that any concerns reveal a serious potential danger to the well being of those involved with the program, DREAM Inc. should be informed at safety@dreamprogram.org or 802-296-6726.

For each concern, please fill out a concern form in this binder as well as the following information (place a check in the "reviewed" box after the Advisory Board has reviewed the concern):

Page # of Concern	Date of Concern	Reviewed?	Review notes:
